PRODUCT CATALOG

EVERYTHING FOR PROFESSIONAL SURFACE REPAIR

PREMIUM QUALITY ...

... meets perfect color matches!

RENOLIT COVA HORNSCHUCH

The PREMIUM Window Pen - recommended by RENOLIT and other leading manufacturers - has been the flagship model in the window industry for years. The pen system was specifically developed for application on window surfaces: the plasticiser-resistant paint guarantees optimal adhesion, the special valve technology ensures even paint flow, and the optimised, replaceable tip enables not only painting of different mitre slots but also precise work in difficult areas (corners, tight spaces) due to variable line widths. Additionally, the interchangeable tip contributes to a longer service life, higher cost-effectiveness, and sustainability of the pen. Thus, the perfect interaction of the pen's individual components makes the PREMIUM Window Pen unbeatable!

GEALAN VEKA ALUPLAST DECEUNINCK PROFEL SALAMANDER ALULUX

For this special pen, there is, of course, a special variety of colours available! You can find numerous foil colours from renowned manufacturers and profile suppliers in our range. If the colour you need is not available, our colour matching service is at your disposal: we precisely match the colours to the desired foil or profile.

*„Some people want it to happen,
some wish it would happen
and others make it happen“*

Michael Jordan

In an era where the global market is more interconnected than ever, fostering international collaborations has become imperative for businesses seeking sustained growth and innovation. Two cities that stand out in this pursuit are Philadelphia and Frankfurt, where a dynamic partnership is shaping the future of business in both regions.

The collaboration between companies in Philadelphia and Frankfurt is not merely a merger of geographical locations; it's a fusion of expertise, cultural diversity, and business acumen. This symbiotic relationship allows businesses on both sides of the Atlantic to leverage each other's strengths and create a synergy that propels them to new heights.

König North America, LLC has its roots back in 1996 as the exclusive importer and distributor of Heinrich König GmbH & Co. KG in North America to meet the growing demand for high quality and innovative repair systems.

Heinrich König GmbH & Co. KG is a family owned business that traces its beginnings in 1892. Operating out of a state-of-the-art manufacturing facility, Heinrich König GmbH & Co. KG is dedicated to producing unique, high quality products that enable users to repair damages quickly and safely with outstanding results. With a broad product line that includes patented tools, "no halo" aerosols and customized colors, Heinrich König GmbH & Co. KG is known as the true innovator in the industry.

With our teams nearby Frankfurt-Germany and Philadelphia we are ready to assist several customer groups and industries, whenever our expertise is needed. We are ready for the future and at the same time continuously developing new and sophisticated solutions for a variety of specific surface repair problems. In addition, we offer our customers customized solutions in the form of integrated concepts. From paints, fillers, finishes to labels and instructions for use - almost anything is possible, tailored to specific customer requirements.

We proudly serve the Window and Door, Furniture, Kitchen Cabinet, Flooring and Architectural market. In addition, our products are used extensively by repair technicians, furniture restorers, hobbyists, and homeowners throughout North America.

Whenever there is a need for sustainable repairs and touch-ups, our products are helping customers with everything for surface repairs, and more.

Our online store offers customers a streamlined shopping experience, providing an easy way to browse our products and place orders effortlessly. Please visit our store at koenignorthamerica.com.

Bring yourself up to date with our innovative range and color options, and take a look at the new product catalog! We would like to thank our customers for their trust! New customers are warmly welcomed!

FILLERS / WAX

FOR WOOD, LAMINATE, PLASTICS, METAL, CERAMICS AND MORE ...

Find a suitable filler material for your surface and for the different types of damage. All fillers are of high quality and distinguish themselves by the following properties:

- Optimally adjusted for different demands and for different surfaces such as wood, laminate, plastics, metal, ceramics, natural and artificial stone.
- Can easily be levelled with the Special Fillers Applicator, the Combination Planer or the Metal Planer.
- Overcoatable with any Sprüh-König® aerosol lacquer.

- Degree of hardness: 1 (very soft) to 10 (extremely hard)
- Suitable for indoor use
- Suitable for outdoor use
- Melting point in degrees Fahrenheit

QUICK FILLER

Uses: Ideal to repair fine scratches and hairline cracks on wood surfaces in interior areas. Rub in and level with the Special Fillers Applicator. Recommended for indoor use and for surfaces that are not subject to severe use. **Characteristics:** Easy and quick processing. Good overcoatability and easy to seal. Melting point at 60°C/ 140°F.

Colors, TDS, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
130000	8cm stick, standard color at choice*
130110-003	10x 8cm Series 110, Wood Tones
130713-003	10x 8cm Series 713, Light Wood Tones
130714-003	10x 8cm Series 714, Wood Tones
130750-003	10x 8cm Series 750, White/Grey Tones

* Add the desired color number to the order code

DUO ROYALE

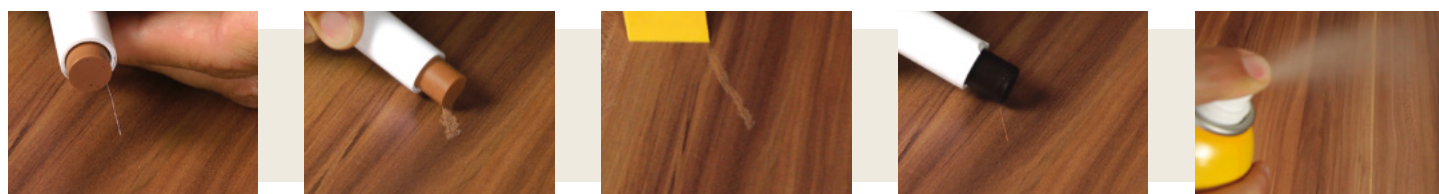

Uses: To fill finest scratches in wood surfaces. For the quick filling of small (nail) holes, to color and to refill abraded stained furniture edges. Recommended for indoor use and for surfaces that are not subject to severe use. **Characteristics:** Easy, quick and neat processing with the handy rotating case. High opacity, good overcoatability and easy to seal. Melting point at 60°C/ 140°F.

Colors, TDS, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
131004	4cm stick, standard color at choice*
131772-045	10x 4cm, Wood Tone Assortment 772

* Add the desired color number to the order code

Choose the color that best matches the surface and rub in wax crosswise to the scratch. Use the bevelled edge of the Special Fillers Applicator to spread the applied wax with circular motions using light pressure. Level off excess material with the planer grooves. Use a darker shade of filler to imitate the grain pattern, if necessary. Then again, level applied wax with the Special Fillers Applicator. Either use Special Repair Lacquer PLUS or Furniture Lacquer PLUS of the corresponding sheen to fix the repaired area and thus to protect it from dust and dirt.

SOFT WAX

Uses: To fill small scratches and holes on real wood and laminate surfaces in interior areas. Press in and level with the Special Fillers Applicator. For surfaces that are not subject to severe use. Recommended for indoor use.

Characteristics: Soft, melts at 74°C/165°F. Available in 8cm and in 4cm sticks

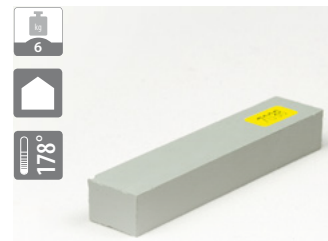

Colors, TDS, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
140008	8cm stick, standard color at choice*
140171-010	10x 8cm, Grey Assortment 171
140712-010	10x 8cm, Light Wood Tone Assortment 712
140740-010	10x 8cm, Vintage Assortment 740
140750-010	10x 8cm, White/Gey Assortment 750
140720-010	20x 4cm, Wood Tone Assortment 720
140730-011	40x 4cm, Wood Tone Assortment 730
140780-011	20x 8cm, Wood Tone Assortment 780

* Add the desired color number to the order code

HARD WAX

Uses: To repair deep scratches, holes and edge damage to real wood and laminate surfaces in interior areas. Melt, apply and level with the Combination Planer or the Special Fillers Applicator.

Characteristics: Hard, melts at 81°C/178°F, good elasticity. Available in 8cm and in 4cm sticks. All colors can be intermixed.

Colors, TDS, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
141008	8cm stick, standard color at choice*
141712-010	10x 8cm, Light Wood Tone Assortment 712

141750-010	10x 8cm, White/Grey Assortment 750
141720-010	20x 4cm, Wood Tone Assortment 720
141730-011	40x 4cm, Wood Tone Assortment 730
141780-011	20x 8cm, Wood Tone Assortment 780

* Add the desired color number to the order code

Hold several color shades to the hot tip of the heater (Gas Heating Iron, Electric Heater or Battery Melter). Apply the molten filler to the damaged area in the direction of the grain. Strip off surplus wax with the Special Fillers Applicator. Use a darker shade of filler to imitate the grain pattern, if necessary. Seal and protect repaired area from dust and dirt using Brush Pen Clear Lacquer or Special Repair Lacquer PLUS.

HARD WAX PLUS

Uses: Especially for scratches, holes and edge damage to real wood, artificial and laminate surfaces in the kitchen, window and flooring sector. Suitable for indoor and outdoor use. Melt, apply and level with the Combination Planer or Special Fillers Applicator.

Characteristics: Very hard, melts at 115°C/239°F, good elasticity, dimensionally stable from -20°C/ -4°F to +110°C/230°F. Available in 8cm and 4cm sticks. All colors can be intermixed.

Colors, TDS, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
143008	8cm stick, standard color at choice*
143720-010	10x 8cm, Wood Tone Assortment 720
143750-010	10x 8cm, White/Grey Assortment 750
143730-011	40x 4cm, Wood Tone Assortment 730

* Add the desired color number to the order code

FILLER COLOR ASSORTMENT

Uses: Assortment of different wax qualities (no. 130 to 143) for fine color adjusting and for transparent effects. Transparent fillers: For the translucent adjustment of König waxes and for the repair of bruises on real wood surfaces without lacquer crack. Basic shades: To tint König waxes.

Contents: 1x Quick Filler transparent 0901; 1x Soft Wax: 0901; 9x Hard Wax: yellow 0915, red 0917, green 0918, blue 0919, RAL 9005, RAL 9010; transparent: 0902, 0901, 0900; 2x Hard Wax PLUS: transparent 0902, 0900

Order Code	Product Description
144500-010	Filler Color Assortment

Colors, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

AQUA FILLER

Uses: To fill small cracks and open joints on untreated/primed wood, laminate, MDF and metal surface. Slightly overfill damaged area and, after curing, level with sandpaper or with the Metal Planer.

Characteristics: A water-based one-component filler, hard, drying period 30-60 minutes.

Colors, TDS, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code **Product Description**
A15500054 Tube*, 150g and accessories
* Add the desired color number to the order code.

EFFECT WAX

Uses
For real wood surfaces whose color effect changes with changing light (e.g. for Maple or Mahogany). Melt, fill in and level with the leading edge of the Combination Planer or Fillers Applicator.

Characteristics
Hard, melts at approx. 81°C, transparent color setting, contains effect pigments, Available in 4cm sticks.

Order Code **Product Description**
146004 Stick 4cm, standard color at choice*
146770-010 20x 4cm, Series 770, Wood Tones
* Add the desired color number to the order code.

Colors, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

CERAMIC FILLER®

Uses:
To repair scratches, holes and edge damage on tiles, ceramics and concrete building blocks in interior and exterior areas. Melt, fill in and level with the Special Fillers Applicator.

Characteristics:
Very hard, water absorption < 1%, melts at 130°C/ 266°F. Available in 20 colors in 4cm sticks.

Order Code **Product Description**
149004 4cm stick, standard color at choice*
149775-010 20x 4cm, Assortment 775
* Add the desired color number to the order code

Colors, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Use the hot tip of the Gas Heating Iron (or Battery Melter) to apply Ceramic Filler of the matching shade to the damaged area. To match the right shade, the different colors can be intermixed. Use the Transparent Special Fillers Applicator to strip of excess material. Color corrections can be made by repeating the previous stage (with the desired color) and again removing any surplus, using the Special Fillers Applicator. Use a cloth to clean the surface. Seal the dry, repaired area with the Brush Pen Clear Lacquer. When the sealed area is dry, a final gloss sheen adjustment can be made with the Sanding & Polishing Cloth.

QUIK WOOD EPOXY

Uses / Characteristics: Quik Wood Epoxy is a polymer compound for instant wood repair. It molds like clay, then dries like wood in 30 minutes. Quik Wood Epoxy bonds wood-to-wood and wood-to-metal. Colors can be blended to achieve desired color. Available in 7 inch sticks.

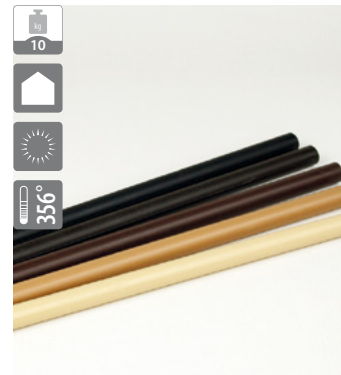

Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code **Product Description**
PKP1004 7 inch Stick, Pine
PKP1026 7 inch Stick, Dark Wood
PKP1027 7 inch Stick, Black
PKP1041 7 inch Stick, Deep Mahogany

NEW IF-139 PLUS | 30CM STICKS

Uses: Ideal for filling knotholes, wood cracks, joints and drill holes. It can be used on almost all surfaces such as solid wood and veneer, woodwork, chipboard, MDF and synthetic materials. Fast melting phase, short cooling time. Accepts stains, waxes and oils. Mechanical grinding, cutting, planing, milling, brushing and also drilling possible.

- Can be used on almost all surfaces
- Fast melting phase, short cooling time
- High density and strong bond
- Very good adhesion of coating systems
- Easy to paint with NC, 2K, water and UV lacquers
- Mechanical grinding, cutting, planing, milling, brushing and drilling possible

Characteristics: Very hard, melting point at approx. 180°C/ 356°F

Order Code **Product Description**
139P30..... 10x 30cm, stick*
139P30300615 10x 30cm stick, Pine

139P30300915 10x 30cm stick, Wenge
139P30301015 10x 30cm stick, Anthracite
139P30300415 10x 30cm stick, Black

Auxiliaries for IF-139 PLUS you will find on page 31

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Apply IF-139 PLUS directly to the area to be filled and allow it to take effect. Immediately after filling, cool down filler with the cooling block while applying pressure to compress the material. After a short cooling period, take off Cooling Block. Cut off excess material flat with the Rali Planer or the Planer. Now further treatment is possible e.g. fixing, sheen level adjustment as well as grinding and brushing.

REX-LITH

Uses
Ideal to repair major damage to corners and edges of real wood, décor and metal surfaces in interior areas. (If used outside, a UV-stable sealer has to be applied).

Characteristics
2A solvent-based two-component filler, extraordinarily hard, little shrinkage (1-2%), can be treated mechanically after curing. Curing time: 20-30 min. Can be colored with König touch-up materials.

***Accessories:**
DUO: 2x Hardener¹⁾, 2x Transparent Plastic Film, 2x Spatula and 2x Tube Squeeze Key.
Tube: 1x Hardener¹⁾, Transparent Plastic Film, Spatula and Tube Squeeze Key.
Can: 2x Hardener¹⁾, 2x Transparent Plastic Film und 1x Spatula.

Available in the following colors:

Order Code **Product Description**

150100 Rex-Lith Color Mixing Assortment

Colors, TDS, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Firmly press in small portions of the Rex-Lith filling compound until damaged area is completely filled or rather slightly overfilled. Cover with the Plastic Film, press on slightly and fix with adhesive tape. When compound begins to harden, carefully lift off the Plastic Film. Strip off coarse projectings with the chisel in thin layers immediately. When completely cured, plane off final filler residue using the Metal Planer. Before retouching, clean surface with Liquid Sandpaper and a cloth wrapped around the Felt Pad. After cleaning, make an intermediate sealing with Furniture Lacquer PLUS. Use the Touch-Up Paint Box to replicate both basic shade and grain pattern, if necessary. Finally, seal area with Furniture Lacquer PLUS.

PLEASE ALSO TAKE A LOOK AT PAGE 21, WHERE YOU WILL FIND OUR NEW IF-139 PRO SET!

TOUCH-UP PRODUCTS

FOR WOOD, LAMINATE, PLASTICS, METAL, CERAMICS AND MORE ...

Find a suitable touch-up product for your surface and for the different types of damage. Our touch-up materials excel especially in:

- Very short drying periods
- Resistant to wiping and water
- High coverage and good adhesion
- Colors can be mixed with each other
- Tailored to the König fillers
- Overcoatable with Sprüh-König® lacquers
- Weather-resistant and lightfast
- Replacement tips available

- Opaque
- Glazing
- Clear / Transparent
- Suitable for indoor use
- Suitable for outdoor use

NEW PREMIUM WINDOW PEN

Uses: A covering lacquer pen for the coloring of mitre joints. Optimized tip and lacquer quality ensure a continuous lacquer flow. Recommended for indoor and outdoor use.
Characteristics: Dries quickly, wipe-resistant, scratch-proof and overcoatable. Acrylic-based.

KING AIRBRUSH

FOR WOOD, DÉCOR, PLASTICS, METAL, CERAMICS AND MORE ...

In cooperation with the company Krautzberger, Heinrich König developed a top functional spray device named KING operating with resealable lacquer cartridges. This system makes it possible to coat perfectly small surfaces and thus is ideal for use in the repair sector.

Clean working: Thanks to the cartridge system, there is no longer a risk of splashing or leaking of the color, making it possible to work cleanly even on difficult to reach areas and overhead. Flexible color play: The color cartridges can be exchanged during one working cycle as often as desired. Thus, there are no limits of color variation for the user. The cartridges are available in many colors. Efficient and economical: Being resealable, the cartridges make it possible to process small quantities. And the selective application and fine layers of paint result in very short drying times. Easy to clean: A cleaning cartridge ensures cleaning in seconds.

- Efficient, economical
- Easy color changing
- Clean working
- Easy to clean

- Opaque
- Glazing
- Clear / Transparent
- Suitable for indoor use
- Suitable for outdoor use

NEW KING COMPLETE SET

Uses: Highly efficient hand-held spray device that works very economically with resealable paint cartridges. This system enables perfect spraying of small surfaces with minimal use of paint and is therefore ideally suited for repair and maintenance.

Characteristics: Hand-held spray device including hose with standard quick-release coupling for compressor (11mm), special grease, instructions for use - with nozzle cartridge in either Ø 0.3 mm or Ø 0.5 mm.

Colors, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
409030	King complete set: with nozzle unit Ø 0.3 mm and hose with quick coupling
409050	King complete set: with nozzle unit Ø 0.5 mm and hose with quick coupling

NEW KING EMPTY CARTRIDGES

FOR SELF-FILLING

Uses: Empty cartridges for the KING hand-held spray device for self-filling of your own product, including all components. Available in two qualities: For solvent-based products or water-based.

Characteristics: Filling quantity of ≤ 17ml, resealable cartridge.

FILLED CARTRIDGES ON REQUEST:

Please contact us for filled cartridges of special lacquer for the opaque coloring of foil-covered window components as well as end and overcaps of ASA / UPVC windows. Wipe-resistant covering lacquer. Acrylic-based. Especially for RENOLIT foils in the field of building elements - doors and windows - we have launched perfectly matched color ranges for KING Cartridges. We also have numerous foil colors from Continental/Hornschuch and Cova in our range. Also on request: covering lacquer (esp. RAL colors) for perfect spraying of small surfaces with minimal use of paint. Excellent for the repair and maintenance sector - especially for painting small parts.

SPRÜH-KÖNIG®
AEROSOLS FROM KÖNIG - ALWAYS A PERFECT MATCH

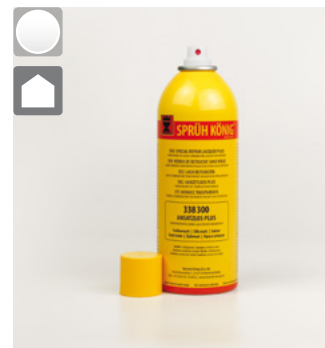

To ensure optimal repair results, our Sprüh-König® brand offers a comprehensive range of aerosols tailored to meet specific repair needs. Whether you're sealing repairs, adjusting gloss levels, creating effects, priming, or preparing surfaces - our aerosols are designed to handle it all. They stand out for their:

- Very short drying periods
- Optimally tailored to the König fillers
- Good adhesion, wipe and water resistance

- Opaque
- Glazing
- Clear / Transparent
- Suitable for indoor use
- Suitable for outdoor use
- Water-based

SPECIAL REPAIR LACQUER PLUS

Uses: To seal repairs without showing overspray and to adjust the sheen of the surface. For indoor use on wood, laminate and metal surfaces. Soft spray technology: considerably less spray mist, a smoother and pressure-reduced spraying and an even finer spray mist.
Characteristics: Transparent nitrocellulose combination lacquer, available from deep matt to gloss.

Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

PF COVERING LACQUER

Uses: For a fully opaque color adjustment and for the varnishing of repairs in the solid color sector. To varnish partial areas. For interior and exterior use on solid wood, laminate, metal and many plastic surfaces. Soft spray technology: considerably less spray mist, a smoother and pressure-reduced spraying and an even finer spray mist.

Characteristics: Pigmented full-covering acrylic lacquer. Sheen level: silk matt.

Order Code 372000-240
Product Description PF Acrylic-Covering Lacquer, 400ml colors at choice*

* Add the desired color number to the order code.

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

LP SHADE EQUALIZER

Uses: For an intensive coloring/re-coloring of small parts of wood and laminate surfaces in interior areas. To level off minor lacquer damage and to adjust slight color deviations.

Characteristics: Colored, highly translucent NC-lacquer. Sheen level: silk matt.

Order Code 328000-240
Product Description LP Shade Equalizer, 400ml colors at choice*

* Add the desired color number to the order code

Colors, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

SUPER HIGH GLOSS

Uses: For the re-lacquering of small high-gloss surfaces like profiles, frames and edges. To protect metal parts (brass, copper etc.) from oxidation and tarnishing, e.g. to be used for the repair of high-gloss finished musical instruments made from wood. Recommended for indoor use.

Characteristics: Transparent acrylic lacquer, can be used to create very thin coats, good adhesion properties.

Order Code 353000-240
Product Description Super High-Gloss, 400ml

Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

EFFECT LACQUER, FINE PEARL TEXTURE

Uses: For use on décor pearl texture surfaces (solid colors), e.g. on window profiles Must afterwards be painted over with the appropriate covering lacquer. Can be used on surfaces in the interior and exterior.

Characteristics: Acrylic-based Clear Lacquer with fine pearl texture effect. Dries rapidly. Good adhesion to many lacquer and plastic surfaces (not to Soft-UPVC).

Order Code 348000810916-240
Product Description Fine Pearl Texture, 400ml

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

ANTI STICK AGENT

Uses: To prevent sticking grooves between sealing tape and the not yet cured thick layer glaze on windows and doors (ensures resistance to caking). For indoor use.

Characteristics: A colorless, wax-based product free from silicone.

Order Code 322000-245
Product Description Anti Stick Agent, 400ml

Safety Data Sheet and more: Simply use the QR code and you will find further information about the product.

ADHESION PRIMER

Uses: Adhesion Primer to improve lacquer adhesion to diverse plastic materials and metals in combination with König clear and color lacquer systems. To increase lacquer adhesion to König fillers under mechanical stress. Suitable for indoor and outdoor use.

Characteristics: A physically drying system. A single application is sufficient. Matt film formation. Dries rapidly.

Order Code 313700-240
Product Description Adhesion Primer, 400ml

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

UNIVERSAL BASECOAT

Uses: For an embedding priming, e.g. as sealing primer for a new structure, as blocking primer for a repair, as smoothing primer for closed-porous surfaces. To be used on both light and dark woods. Recommended for indoor use.

Characteristics: A transparent lacquer based on nitrocellulose. Can be sanded after approx. 20 minutes. Little firing effect. Overcoatable with all König touch-up and aerosol lacquers. Sheen level: matt.

Order Code 312000-240
Product Description Universal Basecoat, 400ml

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

HIGH BUILD BASECOAT

Uses: Colorless NC-based primer for full-surface, wet priming. Spray on in several thin, not too wet coats.

Characteristics: Dry after 5-10 minutes, sandable after 20 minutes. Spray distance approx. 30 cm. Not resistant to soft PVC. Can be painted over with all Sprüh König products.

Order Code 310000-240
Product Description High Build Basecoat, 400ml

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

PRIME LACQUER WHITE

Uses: A high build and completely opaque primer, when body, interior parts, MDF-boards and chipboards are to be re-coated with a covering lacquer. A mobile spray system for priming. For indoor and outdoor use.

Characteristics: A white-tinted nitrocellulose-based primer. Physically drying system. Good crosslinking and flow properties with excellent hardness and resistance. Very good for sanding.

Order Code 359000-240
Product Description Prime Lacquer White, 400ml

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

DIMETHYL ETHER

Uses: Propellant for König aerosols.

Instructions, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

KITS, SETS AND SYSTEMAINERS

NEW UNIVERSAL KIT FURNITURE/INTERIOR FINISHING 1 | 603001

The Universal Kit 603 001 is the comprehensive system for the professional, high quality repair of nearly any kind of damage on wood and décor surfaces in the interior area (furniture, stairs, floorings). From Quick Filler, Soft Wax and Hard Wax series to Rex-Lith® to numerous touch-up materials, the kit comprises all products required to execute a good repair. All necessary accessories and processing tools are also included as well as clear lacquers for sealing. Despite its large range of products, this kit offers a well-structured interior where everything has its place. With drawers, pull-out compartments and pen holders everything is variable and can be arranged according to your individual needs in a very flexible way like a shelving system. The kit can be used in the workshop as well as on-site at the customer's premises.

ADHESIVES / ACCELERATORS

FOR WOOD, PLASTICS, METAL AND MORE ...

HOT STUFF GLUE CLEAR THIN

Uses

Water-thin instant glue ideally suited for tight fitting parts. Ideal for filling and stopping the spread of splits and hairline cracks in furniture, gunstocks, wood being turned on a lathe (such as pen blanks), and stone. Can also be used on carbon fiber or fiberglass cloth (instead of using resin).

Characteristics

Viscosity similar to water, no surface tension. Curing time: five seconds between tightly fitting, non-porous parts. Use the NCF Quick Accelerator to ensure a complete cure of the bond.

Order Code
PKP1013

Product Description
Hot Stuff Glue Clear Thin

More information: Use the QR code and you will find additional information about the product.

CA INSTANT GLUE SUPER T

Uses

This super glue is ideally suited for gluing somewhat porous materials and pieces which have small gaps between them. It can be used to bond wood, metal, rubber, nitrile, composites like carbon fiber and Kevlar, many types of plastics, and more.

Characteristics

Viscosity (200-300 cps) is similar to syrup. Cures at a slower speed (10-25 seconds) than Hot Stuff Glue.

Order Code
PKP1012

Product Description
CA Instant Glue Super T

More information: Use the QR code and you will find additional information about the product.

NCF QUICK ACCELERATOR SPRAY

Uses

Dramatically decreases the curing time of the glue and forces the glue to cure when it wouldn't otherwise.

Characteristics

Plastic-safe and foam-friendly. The accelerator is active for several minutes, so you can spray several pieces at once if you are making multiple bonds.

Order Code
PKP1024

Product Description
NCF Quick Accelerator Spray

More information: Use the QR code and you will find additional information about the product.

SUPER SOLVENT DEBONDER

Uses: To debond and dissolve instant and super glue.

Characteristics: Super Solvent is a nitroalkane formula designed to dissolve glue quickly without causing damage to the surface. It is safe to use with most paints and finishes, although certain fabrics, colorings, and materials may be impacted. We advise testing on an inconspicuous area before full application. Super Solvent can also be used to remove various adhesives and adhesive residue, such as sticky price tags, and to clean surfaces, particularly metal.

CLEANING AND MAINTENANCE

FOR WOOD, DÉCOR, PLASTICS, METAL, CERAMICS AND MORE ...

The König product world for repairs is rounded off by high-quality cleaning and maintenance products. Matched to the individual requirements and to the different kinds of surfaces, we offer a good choice of powerful products.

-  For varnished 1C surfaces
-  For oiled and/or waxed wood surfaces
-  For décor and plastic surfaces
-  Suitable for indoor use
-  Suitable for outdoor use
-  Water-based

AQUA SOFT-CLEANER

Uses: For the professional cleaning of matt and super-matt foil-coated surfaces and plastic window profiles. Extremely thorough, extremely gentle and recommended by leading foil manufacturers: For cleaning foil-coated surfaces, we introduce the AQUA Soft-Cleaner from König. Thanks to its special formula, it shows its full capabilities especially on matt and supermatt foils (such as Skai[®] mattex or RENOLIT PX Matt) without changing the gloss level of the surface. The AQUA Soft-Cleaner also reliably cleans plastic window profiles (PVC white and colored) and painted, non-absorbent surfaces. In addition to marking lines, labels, adhesive residue and residues from protective films, the cleaner also effortlessly removes bitumen and butyl, foreign body abrasion (e.g. rubber) as well as emission deposits and construction dirt. And that, of course, both indoors and outdoors. **Characteristics:** Water-based emulsion with intensive cleaning action. Antistatic effect.

ECO CLEANER

Uses
For the gentle cleaning of decorative and plastic surfaces. Removes most common household soilings. Also suitable for basic cleaning of glazed or varnished wooden windows, PVC windows and foil-laminated plastic windows. For indoor and outdoor use.

Characteristics
Water-based product. High cleaning capacity. Protects the surface. Biodegradable and odourless.

AUXILIARIES & TOOLS

ALWAYS THE RIGHT TOOL AT HAND

In addition to the large number of fillers and touch-up materials, we offer a variety of auxiliaries to complement our range of repair products helping you to process our products effectively and to achieve best possible repair solutions. Optimally tailored to the processing requirements of our products, the auxiliaries have been well-proven over many years. You will also find spare parts and consumables that are used in connection with our case systems and sets. Find everything on the topics:

- Filling
- Levelling
- Polishing
- Sanding, plane
- Mixing colors
- Retouching
- Cleaning
- Melting

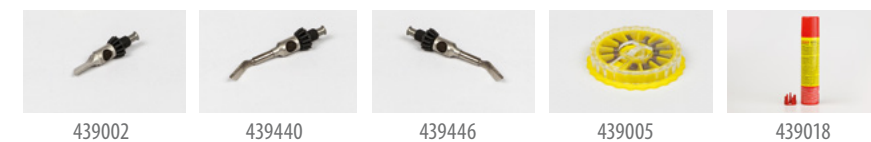

GAS HEATING IRON

A mobile, gas-operated melting tool for the processing of meltable fillers: for melting, molding and color mixing. The temperature is infinitely adjustable. Because of legal regulations, the Gas Heating Iron is supplied in unfilled condition. We recommend to use high-quality pure butane lighter gas from renowned manufacturers. **Technical data:** Length 177 mm / Weight: 60 g / Operating time: approx. 3 hours (dependent on setting) / Maximum temperature: 240°C / 464°F. Flint, included in delivery.

Order Code

More Information: Simply use the QR code and you will find all available colors and further information about the product.

SPECIAL FILLERS APPLICATOR

The smart nostrum for the processing of fillers. Soft Wax can easily be applied and levelled. Excess residue of Hard Wax and Hard Wax PLUS simply to be stripped off with the grooves without scratching the surrounding area. Final filler residue is removed with the fleece stored inside the tool. **Elements:** Corpus with planer grooves, drawer with cleaning comb sanding and polishing cloth (small) and sanding pad (coarse).

Instruction sheet and more: Simply use the QR code and you will find further information about the product.

Order Code 161149-420
Product Description Special Fillers Applicator

COMBINATION PLANER

The Combination Planer consists of the modified Special Fillers Applicator with integrated mini Metal Planer blade. This combination tool levels all kinds of König fillers. 90 degree inner edges can be treated not only with the blade of the Metal Planer but also, thanks to an altered groove direction, with the body of the Special Fillers Applicator.

Instruction sheet and more: Simply use the QR code and you will find further information about the product.

Order Code 161700-420
Product Description Combination Planer

METAL PLANER

A precision tool for the gentle levelling of all solid König fillers. It is also an effective tool to remove imperfections in the finish like runs and sags. Precise working possible without scratching the surrounding area. The high-quality blade made of chrome vanadium steel can be used on both sides. The leather protective cover is included in delivery.

Instruction sheet and more: Simply use the QR code and you will find further information about the product.

Order Code 163000-420
Product Description Metal Planer

MINI METAL PLANER

Order Code 163900
Product Description Mini Metal Planer

The smaller version of the Metal Planer with a mini chrome / vanadium blade sits on a cork sole, which can also be used as an abrasive cork for sandpaper.

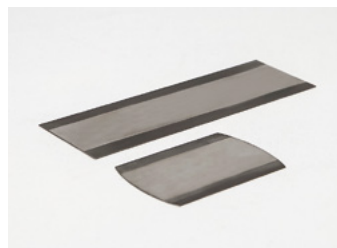

MINI METAL PLANER BLADE

Order Code 163902
Product Description Mini Metal Planer Blade

Replacement blade for the Mini Metal Planer. Chrome / vanadium blade, 4 x 3 cm.

SPECIAL SCRAPER

To level the filled area evenly and to remove lacquer runs and bumps in the lacquer surface. High-quality steel, tempered and sharpened cutting edges. Special Scraper "small": especially designed to remove scratches in white UPVC window frames, particularly well suited for difficult-to-reach areas.

Instruction sheet and more: Simply use the QR code and you will find further information about the product.

Order Code 406000

160x50mm
406500
Special Scraper small,
75x50mm

NEW UNIVERSAL SPATULA

For applying and removing Soft Wax.

Order Code 4021000
Product Description Universal Spatula

More information: Simply use the QR code and you will find further information about the product.

SANDING PAD COARSE

Order Code 609003
Product Description Sanding Pad, coarse
100x60mm

To remove filler residue with a light sanding effect and to dull shiny spots. Grit: 1500.

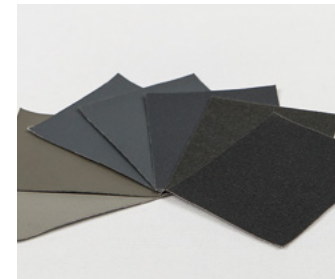

WIRE WOOL, EXTRA FINE

Order Code 413600-409
Product Description Wire wool, 50g
413000
Wire wool, 200g

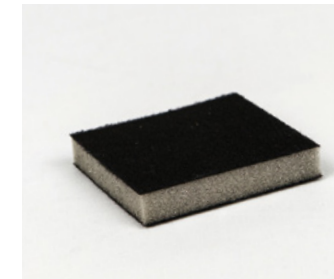

For finest lacquer sanding, to tone down a heavy application of touch-up products and for the gentle cleaning of the melter tips (Gas Heating Iron and Electric Heater).

MICRO SANDING PAPER

Order Code 412007
Product Description Assortment*
To polish out fine scratches on all varnished surfaces, acrylic/perspex, polyester, Hard-PVC, brass and aluminum. Excellent results on high-gloss surfaces. Application of wet sanding method. Can be washed. *The assortment comprises 1 sheet each per grit, sized 6x 7.5cm (1800, 2400, 3200, 4000, 6000, 8000, 12.000).

MAINTENANCE SPONGE

Order Code 515101
Product Description Maintenance Sponge

Sponge for the processing (application) of Universal Maintenance Lacquer.

CORK SANDING BLOCK

Order Code 418000
Product Description Cork Sanding Block, small
60x33x26mm
418100
Cork Sanding Block with
Felt Pad 60x33x39mm

Cork Sanding Block: For use with König Sandpaper. Cork Sanding Block with Felt Pad: For use with König Sandpaper and Cotton Cloths. Also suitable for polishing with Polishing Paste.

FELT PADS

Order Code 419000
Product Description Felt Pad
420000
Felt Pad
with abrasive fleece (1500 grit)

The Felt Pad is used with Cotton Cloths to remove filler residue and to apply Polishing Paste. The version with abrasive fleece is used for removing filler residue, matting and degreasing surfaces.

EDGE PLANER

Order Code 165000-420
Product Description Edge Planer
To cut off damaged edges on wood and laminate surfaces. The rounded side of the Edge Planer is used to level damage edges on solid wood and veneer.

BRASS BRUSH

Order Code 407000
Product Description Brass Brush
For the gentle cleaning of the Metal Planer blade.

COTTON CLOTHS WASHED

Order Code 422000-402
Product Description Cotton Cloth, DIN A5, 5/bag
422000-403
Cotton Cloth, DIN A5, 10/bag

Used together with Felt Pad and Liquid Sandpaper to remove filler residue. For cleaning and maintenance work. Cotton texture, washed.

SPECIAL CLOTH

Order Code 426501
Product Description Special Cloth,
approx. 33x37cm, 40 pcs

A highly absorbent, lint free and tear-proof textile cloth. Indispensable for all cleaning, sanding and polishing work. Very gentle to high-gloss surfaces.

CLEANING CLOTH, YELLOW

Art.-Nr. 421500
Produktbezeichnung Cleaning Cloth, yellow

The cleaning cloth is suitable for polishing various surfaces. The cloth is recommended for both smooth, textured and sensitive surfaces.

MIXING PALETTE

Order Code 603095
Product Description Mixing Palette
140x105x15mm

A handy mixing palette with a solvent-resistant surface and drilling holes for a safe stand of mixing cups and brushes.

MIXING SPATULA

Order Code 641220
Product Description Mixing Spatula

To mix Polyester Filling Lacquer with hardener. Packaging unit: 20 pcs.

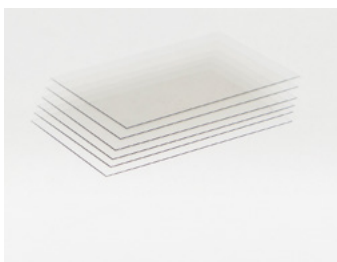

SQUIRREL HAIR BRUSH

Order Code 429001
Product Description Squirrel Hair Brush No. 1
429002 Squirrel Hair Brush No. 2
429003 Squirrel Hair Brush No. 3
429123 Set of 3 (No. 1-3)

For the fine touch-up by brush, an economical alternative to the Red Marten Brush.

PLASTIC FILMS

Order Code 162000
Product Description Plastic Films, 89x60mm

A transparent solvent-resistant foil with a variety of possibilities for use such as mixing colors over a surface, processing Rex-Lith, especially on edges.

SANDING AND POLISHING CLOTH

Order Code 411000-420
Product Description Sanding and Polishing Cloth, 10x13 cm
411000-402 Sanding and Polishing Cloth, 10x13 cm, 5 pcs
411000-403 Sanding and Polishing Cloth, 10x13cm, 10 pcs

White side to dull shiny patches on the surface, to clean plastic and varnished wood surfaces and to remove spray mist. Green side for polishing and to produce a gloss finish on matt surfaces.

MIXING CUP

Order Code 641120
Product Description Mixing Cup, 40ml

Suitable for multiple uses, e.g. for practical dosing and for mixing Polyester Filling Lacquer. Also suitable as a container for NC thinning.

SPATULA

Order Code 162001
Product Description Spatula

To mix Rex-Lith with hardener and to apply AQUA Filler.

RED MARTEN BRUSH

Order Code 430001
Product Description Red Marten Brush No. 1
430002 Red Marten Brush No. 2
430003 Red Marten Brush No. 3
430123 Set of 3 (No. 1-3)
Meets highest demands when retouching with Touch-Up Dye, Color Touch-Up and the Touch-Up Paint Box.

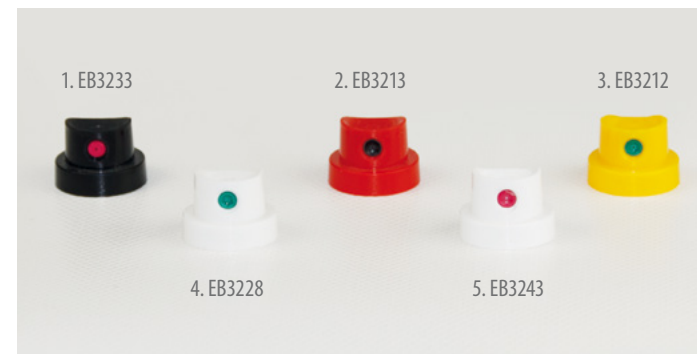

SPRAY CAN HANDLE

Order Code 399100-420
Product Description Spray Can Handle

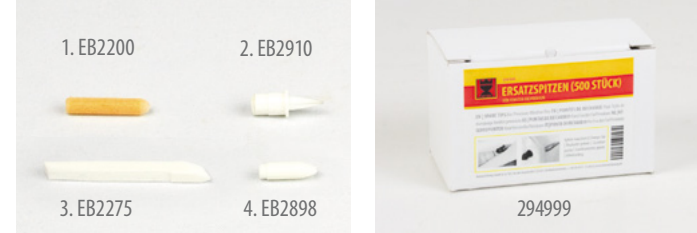

The Spray Can Handle as an attachment to aerosol cans, allowing convenient permanent spraying.

SPRAY NOZZLES

Order Code 1. EB3233
Product Description Swirl nozzle, big orifice: For wet varnishing of whole surfaces. Recommended for Universal Basecoat. Also suitable for Sliding Agent, Anti Stick Agent and all maintenance products in the spray can.
2. EB3213 Swirl nozzle, medium orifice: For wet spraying during repairs. Recommended for Furniture Lacquer PLUS, PF/PFH Covering Lacquer.
3. EB3212 Swirl nozzle, small orifice: For very fine misting. Recommended for Super High Gloss, Shade Equalizer P or LP, Moisture and Bloom Remover PLUS.
4. EB3228 Swirl nozzle, white: for AQUA Clear Lacquer.
5. EB3243 Swirl nozzle-soft spray technology: For Special Repair Lacquer PLUS, Clear Lacquer PLUS as well Covering Lacquer PF and PFH.

SPARE TIPS FOR PEN SYSTEMS

3. EB2275-420 For Touch-Up Dye Pen (10 pcs)
4. EB2898-420 For PREMIUM Window Pen and PREMIUM Edge Pen (10 pcs)
294999 500pcs Dispenser Box PREMIUM Window-/Edge Pen

FOR IF-139 PLUS / PA KNOT FILLER

MELTING GUN KNA-139-330

The professional melting gun has been specifically developed for long-term use in specialist woodworking stores and is ideal for melting IF-139 Plus industrial Filler and Knot Filler. It guarantees precise and reliable work without dripping, even after many hours of operation. The flexible temperature adjustment with thermostat allows the melting temperature to be adapted to different melting rod products. This achieves optimum viscosity of the filling material, which in turn ensures the best, long-lasting repair results. The option of suspension on a spring balancer enables an optimum working process to suit the requirements of the trade. The professional hot glue gun is supplied with a nozzle (3.0 mm) and a screwdriver for adjusting the thermostat. Technical data: 330 Watts, 100-120 V, 130°-230°C, Ø 11-11.5 mm

Order Code 60045000
Product Description Melting Gun
60045000 Replacement Tip, 3,0mm
60045001 Replacement Tip, 1,5mm

RALI PLANER MONOBLOCK 105

Order Code 161600
Product Description Rali Planer Monoblock 105
Special planer for the removal of hard fillers such as the Industrial Filler IF-139 PLUS. The blades can be changed. With the Rali planer, the coarse excess of fillers can be removed very easily in order to then sand the surface.

SPARE PARTS FOR RALI PLANER

Order Code 161604
Product Description Spare Part (10 pcs) for Rali Planer Monoblock

PLANER, 50MM LEITZ-CUTTER

Order Code 161610
Product Description Planer, 50mm Leitz-Cutter
For planar parting and removal of hard fillers, such as the Industrial Filler IF-139. With 50 mm Leitz-Cutter.

COOLING BLOCK 120

Order Code 161605
Product Description Cooling Block 120
Metal cooling block/cooling iron for cooling and compacting Industrial Filler IF-139 PLUS. A robust tool which fits comfortably in the hand due to its large handle.

PICOBELLO®
SPECIAL KITS, PENS AND MORE ...

With our enduser brand picobello®, we offer interesting and perfected ideas and products for industry, trade and handicraft. Products and ideas helping you to achieve service improvement and to reduce complaint costs! The range of our service products can be supplied along with your customers' consignments or used as display products at POS or as give-aways. Our webshop for the enduser provides a first overview of our range. At www.picobello-shop.us you will find tips, tricks and the correct use of the picobello® products.

PICOBELLO® PREMIUM REPAIR KIT (FOR LACQUERED REAL WOOD/DÉCOR SURFACES)

Uses: This Repair Kit is ideal for repairing chips, scratches and other types of cosmetic damage to items such as furniture, laminate / real wood flooring and kitchen worktops. Once cured, the filler is colorfast, weather-resistant and will not shrink.

Kit contents: 15x Hard Wax, 1x AQUA Brush Pen Clear Lacquer (Gloss), 1x Battery Melter, 3x Battery (Micro 1.5 V AA), 1x Special Filler Applicator, 1x Lint-free Cloth, 1x illustrated instruction sheet.

Order Code G61403
Product Description PREMIUM Repair Kit

Instructions and more: Simply use the QR code and you will find further information about the product.

Example of use:

Hold several color shades to the hot tip of the heater. Apply the molten filler to the damaged area in the direction of the grain. Strip off surplus wax with the Special Fillers Applicator. Use a darker shade of filler to imitate the grain pattern if necessary. Seal and protect repaired area from dust and dirt using Brush Pen Clear Lacquer. With the Sanding & Polishing Cloth you can adjust the sheen level.

PICOBELLO® CERAMIC REPAIR KIT (FOR WALL AND FLOOR TILES)

Uses: Repair Kit including AQUA Brush Pen Clear lacquer for sealing, for the sustainable repair of damage such as small flakes and drill holes in wall and floor tiles. Available colors: White/Grey or Terracotta. The colors can be mixed together to achieve a great color match. Recommended for indoor use.

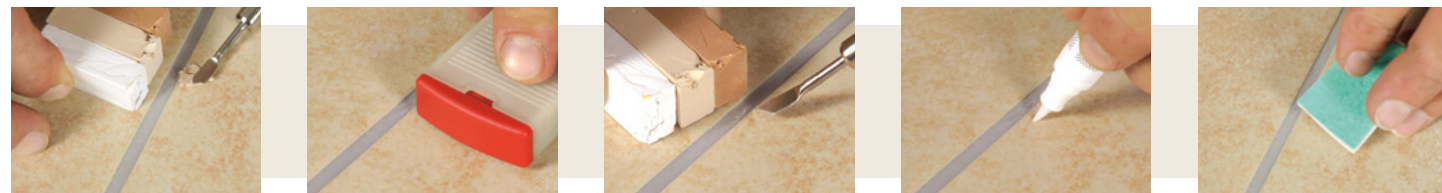

Kit contents: 5x Ceramic Filler, 1x AQUA Brush Pen Clear Lacquer (Gloss), 1x Battery Melter, 3x Battery (Micro 1.5 V AA), 1x Special Filler Applicator, 1x Lint-free Cloth, 1x illustrated instruction sheet.

Order Code G61470
Product Description Ceramic Repair Kit White/Grey
G61471
Product Description Ceramic Repair Kit Terracotta

Instructions and more: Simply use the QR code and you will find further information about the product.

Example of use:

Hold several color shades to the hot tip of the heater. Apply the molten filler to the damaged area in the direction of the grain. Strip off surplus wax with the Special Fillers Applicator. Use a darker shade of filler to imitate the grain pattern, if necessary. Seal and protect repaired area from dust and dirt using Brush Pen Clear Lacquer. With the Sanding & Polishing Cloth you can adjust the sheen level.

PICOBELLO® CERAMIC FILLER - COMPLETE ASSORTMENT

Uses: This pack is designed for refilling or as a supplement to extend your color range for the Picobello Ceramic Tile Repair Kit. For the processing you basically need the Special Fillers Applicator, the Battery melter, the Sanding and Polishing Cloth as well the Clear Lacquer Brush Pen to seal the repair. All these components are included in the Picobello® Ceramic Tile Repair Kit. You can also use this assortment as an addition to the Wood Repair Kit. That way you are able to repair wood surfaces as well as tiles, terrazzo and cast stone.

Order Code 149775-010
Product Description Ceramic Filler - Complete Assortment

Instructions and more: Simply use the QR code and you will find further information about the product.

NEW PICOBELLO® REPAIR KIT - CERAMIC SANITARY WARE

Uses: For the repair of minor chips, impact damage or small holes in ceramic surfaces in the sanitary sector like washbasins, bathtubs and toilets. Cures in seconds.
Kit contents: 1 Ceramic Filler (white), 1 Polishing Paste, 1 Wooden Spatula, 4x Clear Film Strips, 3x Sandpaper, 1x Cotton Cloth, 1x Mini LED Light, 2x Cannulas, 1x illustrated instruction sheet.

Order Code G41060
Product Description Repair Kit Sanitary Ceramic

Instructions and more: Simply use the QR code and you will find further information about the product.

Example of use:

The area to be repaired must be clean, dry and free from grease. Attach the cannula firmly to the syringe. Apply the filler directly into the damaged area until area is slightly overfilled. Place the clear film strip directly onto the filled area. Use the wooden spatula to flatten the filling material. Activate the Mini LED Light either by pressing the centre of the lamp. Cure the filled area by illuminating for approx. 5-10 minutes per cm² from a distance of not more than 1 cm. When filler has cured, remove the clear film strip. Use the Special Sandpaper to sand off excess material in a circular motion with light pressure until level. Apply a small amount of polishing paste to the repaired area and rub in with the cotton cloth in a circular motion using light pressure until the sheen matches the surrounding area. Clean away any polish residue with a dry and clean part of the cotton cloth.

NEW PICOBELLO® REPAIR KIT NATURAL AND ARTIFICIAL STONE

Uses: This repair kit is designed for fixing chippings, impact damage, and small holes on polishable natural and engineered stones. Recommended for indoor use. Cures in seconds.
Kit contents: 1x Natural/Artificial Stone Filler (transparent), 1x Polishing Paste, 2x Cannula, 1x Wooden Spatula, 1x Scalpel, 4x Clear Film Strips, 1x Micro Sanding Paper 1x Cotton Cloth, 1x Mini LED Light illustrated instruction sheet.

Order Code G40360
Product Description Repair Kit Natural And Artificial Stone

Instructions and more: Simply use the QR code and you will find further information about the product.

Example of use:

The area to be repaired must be clean, dry and free from grease. Remove discoloration at edges with sandpaper or a (tooth) brush. Attach the cannula firmly to the syringe. Apply the filler directly into the damaged area until area is slightly overfilled. Place the clear film strip directly onto the filled area. Use the wooden spatula to flatten the filling material. Make sure no bubbles will develop under the film. Activate the Mini LED Light either by pressing the center of the lamp or by moving the small slide regulator. Cure the filled area by illuminating for approx. 5-10 minutes per cm² from a distance of not more than 1 cm. Curing time varies depending on coat thickness. When filler has cured, remove the clear film strip, carefully cut off any excess material with the scalpel when cured. Use the Special Sandpaper to sand off excess material in a circular motion with light pressure until it is even. Attach the cannula firmly to the syringe of the polishing paste. Apply a small amount of polishing paste to the repaired area and rub in with the cotton cloth in a circular motion using light pressure until the sheen matches the surrounding area. Clean away any polish residue with a dry and clean part of the cotton cloth.

NEW PICOBELLO® LACQUER LINER PLUS

Uses: For fine retouching of imperfections such as fine scratches on the surface, on corners, edges or grooves. And for targeted coloring of closed surfaces in wood, plastic and metal.

Characteristics: Acrylic-based pigmented covering lacquer. Fine, thin tip for targeted work. Fast drying. High coverage. Good lightfastness and weather-resistance.

Colors, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.

Order Code	Product Description
G245909016-048	Lacquer Liner PLUS, RAL 9016
G245909010-048	Lacquer Liner PLUS, RAL 9010
G245909001-048	Lacquer Liner PLUS, RAL 9001
G245907016-048	Lacquer Liner PLUS, RAL 7016
G245909005-048	Lacquer Liner PLUS, RAL 9005

Available colors:

9016 RAL 9016 Traffic White	9010 RAL 9010 Pure White	9001 RAL 9001 Cream White	7016 RAL 7016 Anthracite Grey	9005 RAL 9005 Jet Black
--	---------------------------------------	--	--	--------------------------------------

Example of use:

The parts to be dyed have to be dry and free from dust and grease. Shake pen vigorously with cap on for at least 10 - 20 seconds - mixing balls must be audible. Due to exterior influences (heat) an overpressure may develop. To prevent blotching, the pen must be de-aerated. Remove cap and hold pen with tip pointing upwards (ideally into a cloth). Briefly press area marked 'PRESS' to de-aerate pen audibly. Hold pen with tip pointing downwards and gently press area marked 'PRESS', lacquer will slowly run into the tip. Apply lacquer evenly in one go. When opacity decreases, press again to reactivate lacquer flow.

PICOBELLO® REPAIR SET 2 IN 1

Uses: For the quick repair of minor scratches and abrasions. The colors can be intermixed and are suitable to be painted over. For surfaces that are not subject to severe use. Recommended for indoor use.

Characteristics: The wax in the rotating case impresses with its high opacity, it is overcoatable and can easily be sealed. Available in five different color sets.

Colors, Safety Data Sheet and more: Simply use the QR code and you will find all available colors and further information about the product.
